

IEEE ISICT – May 2014 Vote Results

June 16, 2014

On 28 May 2014, the IEEE ISICT committee set up a vote for the approval of the following documents: (a) report on the results of the IEEE Communications Society Survey on Innovation and Standardization, and (b) document that states the policies & procedures (P&P) of the committee. The vote ended on 11 June 2014. The results of the vote are summarized in this report.

The committee currently comprises 15 voting members. The eligibility criteria for considering a committee member as a voting member is presented in the Policies and Procedures of the committee. Among the 15 voting members, 8 members casted their vote with approval of the P&P document and the survey report. This constitutes more than 50% of the total number of voting members. In addition, 3 votes were received from non-voting members. These votes were not considered towards the final result of the vote. Based on the final outcome of the vote, the draft Policies & Procedures and the draft survey results report have been approved by the ISICT committee for publication.
